Your wishes. Your way.

A whole life insurance policy helps provide your loved ones with peace of mind.

Families could have to make several important decisions soon after the death of a loved one. Along with those decisions, expenses from burial planning, debt balances, and out-of-pocket health care bills can quickly add up. Survivors could find themselves not only grieving but left in debt.

Planning for tomorrow, today

A funeral is the third largest family expense.¹ On average, a funeral can cost \$10,000 or more.² Additional expenses associated with a funeral, such as ceremonies, transportation, and other incidentals, can be costly as well. Social Security benefits pay only \$255 to qualified dependents and the Veteran's Administration benefit offers only \$300.³

But, that's not all. The overwhelming majority of U.S. health care costs rise in the final phase of life, when living with eventually fatal chronic illnesses which have the most intense costs associated with the treatments.

No one likes to think about this now

But early planning can give you peace of mind knowing that you have taken care of your final expenses so your loved ones don't have to. Our Final Expense whole life insurance plan can help minimize the emotional and financial burden a loss could have on your family. It can help fund your final wishes.

American's current health care expenditures are concentrated in the final part of the life span⁴

Cash value flexibility

Non-forfeiture options are available. These options decrease the risk of your policy lapsing by mistake, leaving you without any protection at all.

- **Reduced paid-up insurance**

This option is available if you want to provide a reduced death benefit amount that is paid up.

- **Extended term insurance**

This option is available if you want level term insurance for the full death benefit amount, but for a shorter period of time.

- **Automatic premium loan**

This option may help pay future premiums. If there is insufficient cash value to advance the premium as a policy loan, no automatic premium loan will be made. Any remaining value will be applied under the above non-forfeiture options.

You may elect the non-forfeiture option at the time of application and at any time in writing during your lifetime. The option is triggered when your premium remains unpaid at the end of the grace period and you have sufficient cash value.* The more cash value you have in your policy at the time the non-forfeiture option is triggered, the more the paid up benefit or the longer term period you will have.

Build cash value automatically. Over time, you can build up a sum of money that may be available to you if you need it. You can borrow your cash value with policy loans for any reason. Annual interest rate and fees apply.

For complete details of all provisions or benefits, please read your policy carefully.

* In the early years of your policy, you may have insufficient cash value for reduced paid-up insurance, extended term insurance, or automatic premium loan.
