Frequently Asked Questions

What is an "Automatic Premium Loan"?

An automatic premium loan will be available to your client at no additional cost. An automatic premium loan means that if at the end of the grace period the premium due has not been paid, a policy loan will automatically be made from the policy's cash value to pay the premium. The primary purpose is to prevent unintentional lapse of the policy. If the automatic premium loan is not selected, the cash value will not be used to pay premiums.

What is "MIB"?

"MIB" is an acronym for the Medical Information Bureau. This is a database that houses medical information supplied by insurance companies with permission from proposed insureds.

What is Prescription Drug Check?

Information gathered from prescription drug databases is frequently used by insurance companies to assist in evaluating risk and streamline underwriting process.

How are Premiums drafted?

Americo will draft for premiums from a checking or a savings account on the day the application is approved and issued. A specific draft day can be requested but drafting is not available on the 29th, 30th, or 31st. The effective date and the initial draft date will always be the same. If outstanding requirements are not received on a timely basis we will draft for the first and second months' premium. If a third month is required, we will call you for approval.

Are Companion Sales Allowed?

Yes, on Eagle Premier Level product only. Issue ages 40-49 are available only on the Level product for companion sales (for example, spouses) if one of the insureds is at least 50 years old. These ages are not available on the Guaranteed product.

Can Existing Insurance Be Replaced?

No. Replacements are not available with Eagle Premier Series.
